A7 D                    A                    D                    G  
Five loaves, two fishes, O Lord don't you know what my wish-is,

D                    A                    D  
to be with you, and serve you all my life. (2X)

G                    D  
I was small, but you reached out to me.

G                    A                    D  
I was weak but you gave me strength to see

G                    D  
Though a poor boy's lunch was all I had to spare

G                    C                    A  
When you bless, there's always more to be shared

D                    A                    D                    G  
Five loaves, two fishes, O Lord don't you know what my wish-is, (just)

D                    A                    D  
to be with you, and serve you all my life. (2x)

G                    D  
Nothing is impossible for God,

G                    A                    D  
even when it seems --against the odds.

G                    D  
In a world that hungers for bread and word and love

G                    C                    A  
Jesus mul-ti-plies the gift from above.

D                    A                    D                    G  
(with) Five loaves, two fishes, O Lord don't you know what my wish-is,

D                    A                    D  
just to be with you, and serve you all my life. (2x)

-----  
C                    D  
It's not enough to care - when you see the need.

C                    A  
There's always a job to do - when you believe!

-----  
D                    A                    D                    G  
(with) Five loaves, two fishes, O Lord don't you know what my wish-is,  
D                    A                    (G on final, then) D  
just to be with you, and serve you all my life. (2x)
