

Life of Paul CD Handout, from Sunday Software, www.sundaysoftware.com

Teachers: Remember to print the detailed outline to the CD from www.sundaysoftware.com/lifeof/paul.pdf. Remember to test the Bible Time Theater videos and install the version Quicktime found the CD if they don't play. Before copying this handout to students, fill it out and check-off the items you want them to complete. Begin your lesson by writing on the board what your students remember about Paul, then fill in the blanks for them. Open Bibles and turn to the scripture reading, practice difficult vocabulary and then have different students read 2 to 3 verses at a time, stopping for your comments and questions. Students can hear the text again in the Discover the Bible section on the CD.

Life of Paul CD Student Handout!

INTRO:

The Apostle Paul is very famous. He went from hating Jesus to being one of his greatest disciples. The resurrected Jesus spoke to Paul on the Road to Damascus and changed his heart. His letters to the early Church make up half of the New Testament. Paul was born a Jew in Israel, knew several of the original Disciples, and traveled throughout the Roman Empire telling non-Jews (called "Gentiles") about Jesus, helping leaders and planting churches. He was arrested for preaching the Gospel, shipwrecked, and was eventually killed for following Christ. Paul's words are read and remembered by over a billion people today.
